## Engine Pro Honors Top Suppliers

THE SHOP News | January 4, 2016

Engine Pro honored its top suppliers at a recent winter shareholders meeting in Dallas. Companies recognized as featured suppliers were B&P Rods, Dura-Bond Bearing Co., Melling Engine Parts and SA Gear Inc.

The shareholders, who operate 36 Engine Pro warehouses in the U.S. and Australia, chose the featured suppliers from more than 90 companies providing engine parts to the group. The suppliers are selected based on each company's ability to offer value, exceptional programs and policies, and their ability to maintain excellent working relationships, according to Engine Pro.

Companies chosen for the honor also must be the primary source in its product category to at least 80 percent of Engine Pro's members.

Engine Pro is made up of nine independent specialty engine parts distributors who warehouse a full line of internal engine components for domestic and import passenger car, light truck, heavy duty, industrial, marine, agricultural and performance applications.
